

LIGHT STICKS

RETRACTOR LIGHT

ITEM NO.
LS2000-15/16/17

The cordless retractor with LED light provides direct visualization of the surgical cavity, enabling enhanced precision, efficiency and safety.

Our Intelligent Photonics technology directs and shapes light into broad, uniform illumination.

Application Fields

- Cool light source
- Cordless power system
- Lightweight, Compact size
- Single-use & maintenance free
- Angled tip with blunt teeth for improved tissue grip
